THE DIVINE LIGHT STRUCTURE

Quanta Transmissions Retreat

~ I AM A BEING OF LIGHT ~

with Dianne Shelton, L.Ac.

We have the habit of being personality-identified, allowing our unconscious conditioning to determine how we navigate Life. In this workshop we'll organize around our Higher Light-Filled Self, our "I AM Presence", to release recalcitrant patterns of suffering and limitation. These transmissions and processes provide the opportunity to meet, embrace and liberate everything that has obstructed our full awakening and Self-realization.

Sunday, March 6, 2011 from 12:00-6:00 PM.

Sponsored by the Center for Soulful Living in Silver Spring, MD

Please RSVP to Ellen Anderson at emabutterflies@gmail.com or 301-593-0858 (space is limited)

"Once again Dianne's workshop was truly transformative. Through very different guided meditations she helped me actually experience myself as a Being of Light. I felt the beauty, power, freedom and the sheer vastness of who we are. Possibly the biggest element in this workshop for me was working with "What I AM Only" in conjunction with on-going Quanta Transmissions. What a remarkable way to get beyond all our limitations! I love this new tool and this alignment with who I really am. Truly amazing!"

- Mary Beth Lewis (Silver Spring, MD) describing this retreat

"Dianne Shelton is a gifted, loving being of pure Light. In fact, Divine Light has claimed and become her in deep and intimate ways--ways that allow her to bless and awaken others to the Light's powerful gifts. You will find Dianne to be one of the most caring, compassionate and sensitive helpers you have met. I strongly recommend her as a loving partner in co-creating your Light-filled Self."
